

Are you NWEA ready?

#1

Check your student's device to be sure it meets the requirements.

<https://check.nwea.org/>

✓ This machine has passed the check. [TEST AGAIN](#)
Devices that pass this check are much less likely to encounter issues that may disrupt testing. We recommend running this check on several workstations, in each testing lab, prior to your first day of testing.

Move to the next step

✗ This machine has failed the check. [TEST AGAIN](#)
Please contact your Network Administrator. If you need additional help resolving these issues please contact NWEA Partner Support.

Contact your child's teacher

#2

Go to the NWEA practice test practice.mapnwea.org to be sure your pop-up blocking is disabled (username: grow; password: grow).

Oops! Where's my test window?

Either a pop-up blocker blocked it, the test window was moved or minimized, or the test window opened and was accidentally closed.

Here's what you can do to fix it.

Reason 1: A pop-up blocker is blocking the test window.
Solution: Ask your teacher to help you turn off the pop-up blocker and reload your test window.

Reason 2: The test window was moved or minimized.
Solution: Ask your teacher to help you find the test window or maximize the test window again.

Reason 3: The test window actually did open, but it was accidentally closed.
Solution: Refresh or close the browser window and try re-launching your test.

Click here to disable pop-up blocking on this page

#3

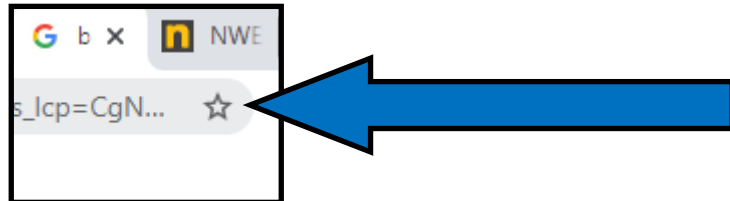

For K-2 students, make sure your child has headphones or a computer speaker

#4

Bookmark the website for NWEA testing.

test.mapnwea.org

#5

Talk with your child about taking the NWEA at home. Be sure they know:

- ☆ It is important that they do their best
- ☆ Parents can offer technology help but no other assistance (For example, you can't read anything or tell them what a word means.)
- ☆ NWEA will not impact grades

#6

If you would like to know more information about the NWEA/Map Growth test, please watch the videos below.
