Waterford School District to Seek Proposals for Transportation Services

May 23, 2017, Waterford, Mich. – The Waterford School District will be issuing requests for proposals (RFP) to provide transportation services to the District. “There has been no decision made in this regard,” says Superintendent Keith Wunderlich, “other than to take this exploratory step to increase customer service.”

The District is working to rectify the critical shortage of bus drivers, which has affected the level of transportation service offered to Waterford School District parents and students. “It is our responsibility to consider all viable measures for improving our level of customer service as it relates to transportation. These difficult decisions are always made with the best interest of our students and our District in mind,” Wunderlich said.
