February 20, 2018

Dear Kettering Families:

As we welcome students and staff back to school from Winter Break, we are ever mindful of the recent tragedy at Marjory Stoneman Douglas High School in Parkland, Florida. We are committed to supporting students and ensuring their well-being. Safety and security are the utmost priority, not only at Kettering, but also at all of the Waterford School District buildings.

We will be ushering in new safety procedures beginning on Wednesday, February 21, 2018. All exterior entrance doors will be locked at all times, except for the main entry door into the office. Students will be greeted at the doors by staff who will permit their entry. The **ONLY** doors that students may enter are at the 400 hall (bus drop-off), the 200 hall (student lot), and the main entrance. Students who need to enter prior to bus drop-off will need to enter at the front entrance. All students who arrive after 7:15 AM in the morning, or who return from shuttles/enrollment in off-site programs, will report to the front entry door to check in to the building. Please help us in this new endeavor by reminding your son or daughter to not open doors or prop doors for any reason, for anyone. Our safety is ours to protect.

We will remain vigilant in our approach while maintaining our academic structure and schedule for students. While we understand that some may be inconvenienced by this new protocol, we are committed to a safe and secure environment for all. Please feel free to contact me with any questions that you may have.

Respectfully,

Debra R. Cooper
Principal
