

AP Computer Science Principles 2017-2018 Summer Work

1. Join the AP CSP 2018-2019 google classroom

- ✓ Enter the following access code to join: **lnbty1c**
- ✓ We will use this classroom page for classroom resources and announcements
- ✓ Please keep your notifications on, as this will be our primary source of communication through the summer
- ✓ Once you have joined the google classroom page you are expected to complete the following over the summer:
 - Read the pdf Textbook chapter
 - Answer the “quiz yourself” Questions (pages 8, 14, and 28)
 - Answer all “Checkpoint” questions (page 32)
 - Respond to three of the five “Web Research” prompts (page 36)

Prepare to take a test over this chapter when we return for the 2017-2018 school year.

2. Create code.org account

- ✓ Go to https://studio.code.org/users/sign_up
- ✓ Note that you can either sign up with an email address and password, or preferably sign up through Google using your school google student account
- ✓ Navigate to <https://code.org/join> and type in the section code: **TKTCJS**
- ✓ Press the “GO” button

Take the “CS Principles Pre-Survey” once you are added to the class

Please watch your emails and google classroom weekly
for any updates.
