Kettering High School Science Department to Partner with Local Cub Scout Packs

November 30, 2018, Waterford, Mich. – On Monday, December 10, 6:30-7:30pm, Kettering High School’s Science Department faculty will help local elementary Cub Scout Packs 182 (Cooley Elementary) and 130 (Schoolcraft Elementary) earn their Science Adventure Badges. The Scouts will be divided into to three groups to accomplish the following:

- Conduct experiments in the areas of chemistry and physics
- Conduct experiments under the microscopes in biology
- Participate in Q & A session with faculty while learning about careers in the field of science

In order to earn the badge, Scouts are required to conduct a “fair test” to compare possible explanations. They must visit a museum, college, laboratory, observatory, zoo, aquarium, or other facility that utilizes science. The purpose is for Scouts to learn about various scientific methods and explore different areas of science.

This opportunity is made possible through the extraordinary efforts and dedication of several District science teachers.
