## HAVILAND ELEMENTARY

---

August 25, 2025

Dear Haviland Kindergarten Parents,

Welcome to the new school year!

We have a kindergarten student who has life-threatening food allergies. They include: **All nuts (including but not limited to: peanuts, tree nuts, nut oils, almonds, walnuts, etc.).** The food allergies are severe and exposure in any form (airborne, skin contact or ingestion) to these substances could result in anaphylaxis, a potentially fatal condition that requires immediate medical attention.

We are asking parents/guardians to be conscientious in the selection of snacks that your child brings to class in an attempt to limit the chances of this child being exposed. **Please do not send in any snacks containing any nuts (including but not limited to: peanuts, tree nuts, nut oils, almonds, walnuts, etc.).** We are also requesting that students wash their hands before coming to school to avoid possible cross contamination once they arrive at their classroom. We will continue washing hands and sanitizing surfaces at school to help keep all of our students healthy and safe.

Thank you in advance for making the class environment a safe and healthy place for the students. By working together, we can make a difference for our children.

We look forward to a great school year!

Warm Regards,

Shelley Werthman  
Principal
